

Summer Agronomist

Location: Nipawin, SK

Position Type: Full Time, May-August

Ag Grow Consulting Ltd. provides timely, unbiased and precise agronomic services to Saskatchewan farmers. Our services include field scouting, soil and tissue testing, variable rate applications and water management. We use local experience and research to power our recommendations and drive farm success.

As a Summer Agronomist, you will get a boots on ground experience in field and have the opportunity to interact with growers. You will be guided by our Ag Grow team of agronomists who will support, help develop your skills and share their passion for agriculture. Take a break from the books and spend your summer digging in the soil and watching the crop grow. If this fast paced position is for you, come join our team!

Highlights:

- Professional growth supported by mentorship and agronomy resources
- Access to AgScouter for tracking field data
- Company truck and quad provided
- Collaborative work environment with team-building opportunities
- Competitive salary

Hands on Experience:

- Crop Scouting - staging, weed, disease and insect identification
- Sharing observations with team members and one on one with customers
- Diverse exposure to crop managements and agronomic practices
- Access to meetings, tours, updates

Benefits of Working for Ag Grow Consulting:

- Be enrolled in a University or College Program
- Good work ethic and communication
- Team working ability

Deadline: September 30th, 2025
